

The Victory Electric Cooperative Association, Inc.

(Cooperative)

Replacing Schedule I-LM-11

Rural Territory

(Territory to which schedule is applicable)

which was issued November 30, 2010

The cooperative's bylaws, rules and regulations are supplemental to this tariff and are incorporated herein.

Sheet 1 of 4 sheets

IRRIGATION SERVICE
LOAD MANAGEMENT

Applicability:

Applicable to consumers of the Cooperative for pump irrigation service of thirty horsepower (30 hp) and above.

This schedule is available to such consumers who agree to participate in a load management program as outlined below:

Character of Service:

Alternating current, multi-phase, 60 cycles, at available voltage.

Annual Rate:

Annual Horsepower Charge: \$25.00 per connected horsepower
but not less than \$750.00

Plus

Energy Charge:

First 600 kWh per hp 9.408¢ per kWh
Over 600 kWh per hp 7.158¢ per kWh

Power Cost Adjustment Clause:

The above rate shall be increased or decreased in accordance with Schedule PCA, as it currently exists or may be amended from time to time.

Sheet 2 of 4 sheets

Horsepower Billing Procedure:

The annual horsepower charge will be billed according to the following schedule:

- Initial 50% billed in April.
- Additional 25% billed in May.
- Remaining charges billed in June.

Load Management Control:

If the customer contracts with the Cooperative under its Load Management program and follows the program for the duration of the peak season, he shall receive a credit of \$20.00 per connected horsepower for the year.

Under this contract, the customer agrees to the installation of a disconnecting device on his equipment by the Cooperative and that the Cooperative has the option of interrupting his service only during the time that the system is experiencing a peak condition. Power will be restored when the peak condition normalizes.

Participation in the program is limited to the availability of control equipment.

If the customer alters the wiring or otherwise interferes with the operation of the control equipment without the prior approval of the Cooperative, all billing will be reverted back to Schedule I, Irrigation Service and the \$20.00 per connected horsepower credit will be forfeited.

Seasonal Control

If a customer contracts with the Cooperative under its Seasonal Control program, he shall receive a credit of \$20.00 per connected horsepower for the year.

Under this contract, the customer agrees that the Cooperative can disconnect the transformers serving the pump during the period June 15 through September 1.

Service will be restored during the control period upon request by the customer and upon the payment of the reconnect fee as provided in the rules and regulations of the Cooperative. In

SCHEDULE I-LM-13

The Victory Electric Cooperative Association, Inc.

(Cooperative)

Replacing Schedule I-LM-11

Rural Territory

(Territory to which schedule is applicable)

which was issued November 30, 2010

The cooperative's bylaws, rules and regulations are supplemental to this tariff and are incorporated herein.

Sheet 3 of 4 sheets

this event, all billing will revert back to Schedule I, Irrigation Service and the \$20.00 per connected horsepower credit will be forfeited.

Determination of Connected Horsepower:

The horsepower connected for billing purposes shall be the manufacturer's nameplate rating of the motor, except that, if the Cooperative so elects, it shall be based on actual measurement of power input during the period of maximum normal use.

Minimum Annual Charge:

The minimum annual charge shall be the highest of the following:

1. \$25.00 per horsepower connected per year, but not less than \$750.00.
2. Charges as determined by the Line Extension Policy.

The anniversary date of all contracts under this schedule will be January 1 of each year.

If a contract is first entered into on a date prior to September 1 there shall be no proration of the annual minimum bill or advance payment. Subsequent to September 1, proration shall be that portion of the year the contract is in effect.

Load Management Credits:

Customers qualifying for Load Management Credits shall receive the credit at the end of the irrigation season in October.
