CEO MESSAGE

America's Electric Cooperatives Post-Election Priorities

With the midterm elections in the rearview mirror, Victory Electric is looking ahead at the impact and opportunities for rural America and electric cooperatives.

Electric cooperatives across the nation played an active role in the midterm election and worked to get to know each candidate running for federal office. This was particularly important since more than 60 members of Congress decided to retire or run for another office.

Through Co-ops Vote, a nonpartisan political engagement effort led by the National Rural Electric Cooperative Association, more than 100 candidates attended electric cooperative functions or met with cooperative staff. Several statewide associations sponsored or hosted a debate or forum for gubernatorial candidates, while more than 30 local electric cooperatives participated in National Voter Registration Day activities.

As we continue getting to know our new elected officials, Victory Electric

We are proud to continue working toward a brighter and more prosperous rural America for everyone.

will continue advocating for policies that protect local business interests and advance the quality of life in southwest Kansas.

Shane Laws

There are several opportunities for our elected leaders to find common ground and advance legislation to benefit our community.

Improving our nation's aging infrastructure is a great place to start. Congress and the White House should explore an infrastructure package that benefits all Americans, especially those at risk of being left behind in rural America. And this investment in critical infrastructure needs to go beyond roads and bridges. Congress should leverage an infrastructure package to help maintain and modernize the electric grid and connect rural communities to the modern economy.

The new Congress also presents an opportunity to expand access to high-speed internet service in rural communities that currently lack it. According to the FCC, 23 million rural

Americans lack access to broadband internet—most of them are members of an electric cooperative. Roughly 100 electric cooperatives are working to close the digital divide by bringing broadband to their communities. Despite that progress, an expanded combination of grants and loans is necessary to continue providing rural communities with the means for education, telemedicine and a 21st century economy. Everyone—the Trump administration and both Democrats and Republicans in Congress—agrees on the need to bolster rural broadband.

A third area of possible bipartisan agreement lies in the need to produce a new farm bill. The farm bill, which authorizes numerous rural economic development programs, traditionally has enjoyed bipartisan support in Congress. Although the House and Senate have passed very different versions of a farm bill this year, we're hopeful lawmakers can come to an agreement on a compromise bill that promotes rural economic development and protects Rural Utilities Service electric loan funding on which electric co-ops depend.

Electric cooperatives like Victory Electric are engines of economic development in Kansas. We are proud to continue working toward a brighter and more prosperous rural America for everyone.

Thanks, Shane

Chance Joins Victory Electric Team

Tracy Chance

Victory Electric hired **TRACY CHANCE** as a member of the tree trimming crew. He's made a complete career change, joining us after

previously working in the electrical project department at National Beef of Dodge City.

"I am glad to be here," Chance said. "I heard great things about the people at Victory Electric and know they serve a lot of people with what we value a lot – electricity."

The Colby native came to Dodge City after graduating from Colby Community College and Fort Hays State University with a degree in exercise science. Chance has lived in Dodge City for more than 25 years and has raised a family here.

"It took me a while to get to where I am now," Chance said. "I hope to retire from Victory Electric; it has been nothing but great since I came here."

His primary role is clearing right of ways for line and trimming trees disrupting electric service to members. Chance joins tree trimmer foreman Armando Ceja's crew.

"It is just the two of us," Chance said. "It has been a lot of fun to get to know Armando, and while learning the ropes and all the equipment has been a challenge, I'm really enjoying it. It's nice to enjoy going to work every day!"

Tree trimmers are a big part of Victory Electric's work.

"They're the crews we send ahead of construction crews when we need new line built or there are tree rows in the way," said Ryan Miller vice president of operations. "They are necessary every day and even more so when we have weather or storms that may damage trees. We are thankful Tracy is here to help."

Chance enjoys hunting, going to the lake, and spending time with family. Victory Electric welcomes Tracy, his wife, Roxanne, and his two sons, Cody and Drew, to the Victory Electric team. Join us in welcoming Tracy Chance!

Statement of Nondiscrimination

In accordance with Federal civil rights law and U.S. Department of Agriculture (USDA) civil rights regulations and policies, the USDA, its Agencies, offices, and employees, and institutions participating in or administering USDA programs are prohibited from discriminating based on race, color, national origin, religion, sex, gender identity (including gender expression), sexual orientation, disability, age, marital status, family/parental status, income derived from a public assistance program, political beliefs, or reprisal or retaliation for prior civil rights activity, in any program or activity conducted or funded by USDA (not all bases apply to all programs). Remedies and complaint filing deadlines vary by program or incident.

Person with disabilities who require alternative means of communication for program information (e.g., Braille, large print, audiotope, American Sign Language, etc.) should contact the responsible Agency or USDA's TARGET Center at 202-720-

2600 or contact USDA through the Federal Relay Service at 800-877-8339. Additionally, program information may be made available in languages other than English.

To file a program discrimination complaint, complete the USDA Program Discrimination Complaint Form, AD-3027, found online at ascr.usda.gov/complaint_filing_cust.html and at any USDA office or write a letter addressed to USDA and provide in the letter all of the information requested in the form. To request a copy of the complaint form, call 866-632-9992. Submit your completed form or letter to USDA by:

▶ Mail: U.S. Department of Agriculture Office of the Assistant Secretary for Civil Rights at 1400 Independence Ave., SW Washington, D.C. 20250-9410;

▶ Fax: 202-690-7442; or

▶ Email: program.intake@usda.gov.

USDA is an equal opportunity provider, employer and lender.

There are several opportunities for our elected leaders to find common ground.

Another Successful Parade of Lights and Chili Cook-off

Hundreds of community members enjoyed the chili cook-off sampling in Eisenhower Park.

The 17th annual Christmas Parade of Lights and Chili cook-off was held on Nov. 26 in Dodge City.

Sponsored by the *Dodge City Daily Globe*, Boot Hill Museum, Victory Electric, the City of Dodge City, Main Street, Salvation Army, and Southwind Broadcasting, the event attracted hundreds of visitors to newly-renovated Eisenhower Park.

Thirty-two entered the chili contest. The lucky winners in the Judges Choice category were **FAMILY CARE CLINIC OF DODGE CITY**, first place; **TERRY SCHAFFER**, second; and **DODGE CITY CONVENTION AND VISITORS BUREAU**, third. Those who impressed the crowd won the People's Choice category. Winners were **ARROWHEAD WEST**, first place; **NATIONAL BEEF**, second; and **FORD COUNTY FIRE AND EMS**, third. All winners received an engraved chili ladle sponsored by

Victory Electric.

A giveaway happened this year during the Mayors' tree lighting. The city of Dodge City and the tourism coalition drew two prizes valued at more than \$500 during the tree lighting just before the parade.

The parade attracted 22 entries, ranging from classic cars and Dodge City school bands, to floats decked out in lights.

For the second year, Santa's sleigh virtual reality (VR) ride was at the event. Dodge City Community College, Dodge City/Ford County Development

Cooperation, McDonald's and Victory Electric all sponsored the attraction. Adults and children alike, enjoyed the four minute VR ride in Santa's sleigh driving the reindeer.

We appreciate Main Street for Santa's House and providing pictures, Salvation Army's hot chocolate, and Boot Hill Museum who provided cupcakes to the community.

The event was held in Eisenhower Park while Boot Hill Museum is under construction. Thanks to all who attended, and we hope to see you next year!

Arrowhead West receives their first place award for People's Choice.

Jerri Imgarten (left) presents Family Care Clinic their winning ladle.

Victory Electric enters the parade with a lighted tree trimming truck in honor of the late Steve Jimmerson.

Downed & Dangerous

If you see a downed power line, always assume it is energized and dangerous. Avoid going near it or anything in contact with the power line.

Downed power lines can energize the ground up to **35 ft.** away – so keep your distance.

Never drive over a downed line or through water that is touching the line.

If you see a downed line, notify the local authorities immediately.

Never try to move a downed power line, even if you think the line is deenergized or if you're using a non-conductive item – this will not prevent injury or death!

Five Tips for Space Heater Safety

As temperatures drop this winter, many will look for supplemental heating sources for their homes. Space heaters can be a good alternative for those who want to warm one area of their home without turning up the thermostat on the central heating system. However, space heaters are also responsible for 32 percent of house fires, according to the National Fire Protection Association. If you plan to use a space heater in your home this winter, review these tips from Victory Electric to keep you, your family and your property safe. Stay safe this winter with these tips.

- ▶ **Materials**— What are the components of your space heater made of? Parts like metal grating can be hot to the touch and may burn anyone who gets too close. Make sure you purchase a heater that is cool to the touch and has guards over the coils just in case little fingers get too close.
- ▶ **Placement**— While it can be tempting to place a small heater on a shelf so it is not in the way of pets and children, it is safest to leave the heater on a level, nonflammable floor. Placing the space heater on the floor can keep it from falling over, preventing fire hazards. Also, remember that space heaters and bathrooms are not a good combination unless the heater is designed for bathroom use. Moisture can damage the heater. The most important rule about space heater placement is the three-foot rule. Whether you are using the heater in the bedroom, living room or kitchen, space heaters should always

Practicing space heater safety can save you from a fire.

be kept 3 feet away from flammable materials and out of the way of children and pets.

- ▶ **Special Features**— Does your space heater have an auto shutoff function if tipped over? Auto shutoff can be a lifesaver. If you currently own a space heater without auto shutoff, consider purchasing a heater with this important safety feature.
- ▶ **Cords**— You should never use an extension cord when plugging in a space heater as it can cause overheating. The space heater should be plugged directly into a wall outlet, and should be the only thing plugged in to the wall outlet. Also make sure cords aren't in a high-traffic area so they are not a tripping hazard.
- ▶ **Use**— Never leave a heater unattended while in use. If you are leaving your home or going to bed, unplug the space heater.
